No Bake Dough Recipe

1 1/2 cups flour
3/4 cup salt
1 cup boiling water

Mix together and knead until smooth. Refrigerate until cold. Sculpt or mold your creation. Leave out until dry, then paint if desired.

Baked Dough Recipe

4 cups flour
1 cup salt
1 1/2 cups water
2 tablespoons vegetable oil
food coloring
1 egg beaten

Mix together flour, salt, water, and vegetable oil. Knead until smooth. Divide into portions and add a few drops of food coloring to each. Sculpt or mold your creation and brush egg over the top. Bake on a cookie sheet in the oven at 300 degrees F for about an hour until the clay is golden. Paint and finish with Modge Podge or craft sealant.

Tip!

Use toothpicks and tin foil to build an armature (support) for your sculpture. Then mold your clay around the armature. Your sculpture will be stronger and more stable!
